

The Grenadines, *finally.*

A decision-ready plan for the charter you fully scoped in 2020 and never sailed — rebuilt for **April 2027** with post-Beryl ground truth, current pricing, and four routes from Grenada to St Lucia.

CRUISING GROUND	CREW	TARGET WINDOW	BASELINE ROUTE
Grenada → St Lucia	6 / 4-cabin cat	Apr 2027 shoulder	~146 nm · 9 days

00 EXECUTIVE SUMMARY

The recommendation,

before the reasoning.

You planned this route once and it holds up. The chain is **open for business** — every 2020 stop is viable for April 2027, though Beryl left fingerprints you'll want to plan around. Below is the single plan we'd book; the rest of this dossier is the evidence and the alternatives.

OUR SINGLE RECOMMENDED PLAN

Sail it one-way, north to south, on a Moorings 45.

Fly into St Lucia, drop down the whole island chain finishing at your old home base in Grenada, on the only boat/company that actually makes the one-way possible — right-sized for six, youngest fleet, best base backup for a demanding route.

EST. ALL-IN / PERSON

≈ \$4,100 comfortable

WHY ONE-WAY

Only Moorings & Sunsail can do it

They alone run bases in **both** Grenada (Port Louis) and St Lucia (Rodney Bay). The published one-way fee is **\$2,100**. Everyone else — including Dream, your 2020 operator — is single-island here.

WHY THE SWITCH FROM DREAM

Dream is Grenada-only now

Dream Yacht has no St Lucia bareboat base, so it can't do the one-way. It's still the smart **value round-trip** pick (Bali 4.2, friendlier deposit terms) if you'd rather start and finish in Grenada.

THE 2020 SCAR TISSUE

Protect the deposit this time

Moorings terms are **strict** (deposit non-refundable, 100% inside 180 days). The fix isn't a COVID guarantee — it's the **12-month refund credit + a Cancel-For-Any-Reason rider** bought at deposit.

▲ POST-2020 REALITY — READ FIRST

Hurricane Beryl (Cat 4, 1 July 2024) put its eyewall directly over Carriacou, Petite Martinique, Union and Mayreau — ~95% of homes on Carriacou/PM destroyed. By 2026 the marine spine (clearance, moorings, fuel, key restaurants) is recovered or well-recovered, but a handful of your 2020 venues are unconfirmed and **Salt Whistle Bay's sand spit and bars are still being rebuilt**. Full stop-by-stop status in §1.

What survived, what changed, what to phone ahead.

Researched mid-2026, projected ~33 months post-storm to April 2027. Verdicts are conservative. Anything tagged **CONFIRM** needs a call or a VHF hail on the day.

STOP	APRIL 2027 VERDICT	WHAT'S BACK	WATCH / CONFIRM
Tyrrell Bay, Carriacou clear-out / clear-in point	● VIABLE	"Green again" by 2025; customs office at the marina; fuel & provisioning; Las Iguanas & Lambi Queen open.	Some dismayed wrecks may linger in the bay. Lazy Turtle & Slipway status CONFIRM .
Clifton, Union Island SVG clear-in	● VIABLE	Customs/immigration functional — temporary office behind Bougainvillea Bar. AYC marina open (VHF 68), Erika's agents, ferry + new terminal running.	Town still storm-marked (roofs, debris). Happy Island rebuilding — hail on VHF to confirm it's serving.
Salt Whistle Bay, Mayreau	● LIKELY — VERIFY	EC\$2.1M spit restoration underway; "yachties set sail as restored" reporting. Robert Righteous rebuilding.	The famous sand-spit & sheltered pool may not be fully back. Fallback: Saline Bay (Dennis's Hideaway) same island.
Tobago Cays Marine Park the marquee stop	● FULLY VIABLE	Mooring field in use; Romeo's BBQ operating (VHF "Romeo"); fees now paid online (tcmp.reefsupport.org).	Reef still recovering post-Beryl + bleaching; Petit Tabac anchoring zone removed. Manage snorkel expectations on damaged sections.
Petite Martinique	● ANCHORAGE ONLY	Viable as an anchorage / cultural stop; Business Reactivation Fund rebuilding livelihoods.	Palm Beach Restaurant CONFIRM . No reliable yacht fuel — fuel at Tyrrell Bay or Port Louis instead.
Sandy Island · Chatham Bay	● VIABLE	Sandy Island a fine snorkel day-stop. Chatham: Sunn Dipp open, Tenuta resort rebuilding & offering clearance (~EC\$100).	Sandy Island's north reef still recovering. Chatham beach bars "returning under makeshift conditions" — confirm which are open.

Clearance has changed since 2020 — and it's simpler

THE SYSTEM

SailClear replaced eSeaClear

A single mandatory pre-arrival portal used by **both SVG and Grenada**. Register the crew and vessel online, then present at the C&I office. **US\$25/year** flat (since May 2024), unlimited clearances across participating countries.

● REGISTER BEFORE YOU FLY

SMARTEST CLEAR-IN

Clifton works; Bequia is smoother

Northbound from Grenada, **Clifton** is the natural (if basic, temporary-office) SVG gateway. If your route allows, **Bequia (Port Elizabeth)** is undamaged, best-serviced and the more comfortable option. On the Grenada side, **Port Louis / Prickly Bay** or **Tyrrell Bay** for a northbound border crossing.

ITEM	EC\$	US\$	NOTE VS 2020
SailClear subscription (annual)	~68	~25	New since 2020 — one flat fee
SVG cruise tax — EC\$35 × 6 pax	210	78	~In line with your 2020 ~EC\$140 (now per-person)
Grenada clearance (customs + nav aids)	~105	~39	Length-based; weekday
Tobago Cays — 1 night, 6 pax (EC\$15pp + EC\$60 mooring)	150	56	Up from ~EC\$45+EC\$10pp; pay online now
Indicative official-fee floor	533	198	Before any overtime
Official fees, crew of 6, ~45 ft cat, weekday hours. EC\$2.70 = US\$1. Overtime (after 16:00, weekends) adds ~EC\$35+.			

Three cities, one island, and the once-daily bottleneck.

SEA, PHX and DFW all funnel through the same eastern/southern hubs — **MIA**, **CLT** (American), **ATL** (Delta), **JFK/BOS** (JetBlue). There is **no West-Coast nonstop** to any of the three islands, and the island legs are **once-daily**. That single fact drives the whole flight plan.

AIRPORT	US NONSTOPS (CARRIER · HUB)	RESILIENCE
GND · Grenada round-trip base	American MIA (daily) & CLT (seas.) · Delta ATL · JetBlue JFK (daily), only nonstop BOS	● STRONG – 3 CARRIERS
UVF · St Lucia one-way start	American CLT/MIA · Delta ATL · JetBlue JFK (+BOS seas.) · United ORD seas.	● STRONGEST – MOST FREQUENCIES
SVD · St Vincent wildcard	American MIA (daily exc. Tue) · Caribbean Airlines via P0S/BGI	● THIN – AA/MIAMI-CENTRIC

Estimated April 2027 round-trip fares

Economy · shoulder season · USD · ranges, not quotes

SAME-DAY FROM THE WEST COAST?

DFW yes · PHX marginal · SEA red-eye only

The island flight leaves the US hub mid-morning. A normal PHX-MIA lands *after* it's gone. **Overnight at MIA/CLT** converts a fragile connection into a robust two-segment plan.

BAGGAGE — SOFT DUFFELS, EXACTLY RIGHT

If any leg uses SVG Air / interCaribbean turboprops: **44 lb free first bag, 70 lb hard cap** (over → freight, space-available), carry-on **≤13 lb**. Keep each duffel ≤44 lb and split weight across people.

→ THE ARRIVAL RULE — WITH THE DELAY MATH

Arrive on-island no later than the day before a Thursday check-in — Tuesday for the SEA/PHX crews. Island legs are once-daily: a missed connection isn't "the next flight in two hours," it's **+24 hours**, and a Wednesday-for-Thursday plan has effectively zero slack. A Tuesday arrival buys a full recovery day.

Templates — DFW: single AA ticket via MIA/CLT, arrive Wed. PHX: fly to MIA, overnight, morning island flight, arrive Tue. SEA: overnight-at-hub (preferred) or SEA-MIA red-eye (high-risk), arrive Tue. For the one-way plan, position via **Barbados (BGI)** on interCaribbean/LIAT and add a buffer day.

Wildcard: SVD (Argyle) as a base or joining point

St Vincent's Argyle airport drops you in the *middle* of the cruising ground — but it's the thinnest air link and none of the three shortlisted operators base there. It earns a place as a **joining airport**, not a primary base.

THE TRADE

Closest to the Grenadines, farthest from a backup flight

SVD is essentially **American via Miami** (daily except Tue), plus Caribbean Airlines one-stop via POS/BGI — one broken thread and there's no same-day alternative. But it's a **short hop to Bequia, Mustique and the Cays**, cutting the Grenada delivery legs entirely.

HOW YOU'D ACTUALLY USE IT

Two ways: (1) fly SVD, then **SVG Air / ferry to Bequia or Union** to meet a boat positioned there; or (2) switch to a **St Vincent-based operator** (e.g. Barefoot, Blue Lagoon) for a pure Grenadines loop — giving up the Moorings one-way and the Pitons.

AS A BASE	AIR RESILIENCE	SAI
UVF · St Lucia ★ our pick	● STRONGEST	Nor Pitc the cha
GND · Grenada	● STRONG · 3 CARRIERS	Sou deli up t Gre
SVD · St Vincent wildcard	● THIN · AA/MIA, NO TUE	Cer sho to Bec
Each airport judged as a charter base for this		

→ VERDICT ON SVD

Use SVD to join, not to base. It shines only if you abandon the one-way and charter a St Vincent loop, or if a crew member needs the shortest possible path to a boat waiting in Bequia. For the recommended plan it stays a **positioning option** — keep UVF-in / GND-out as the backbone.

Only two operators
can sail you one-way.
That decides a lot.

The pivotal finding: **only The Moorings and Sunsail** run bases in both Grenada and St Lucia, so only they sell the **St Lucia → Grenada bareboat one-way**. Dream (your 2020 operator) is now Grenada-only. Everyone else is single-island in this region.

COMPANY	GRENADA BASE	ST LUCIA BASE	ONE-WAY STL→GND

One-way?	Yes	Yes	No (round-trip Grenada only)

◆ PRIMARY PICK

Moorings 4500L (Leopard 45), one-way Rodney Bay → Port Louis. It's the only way to sail your exact route; a true 4-cabin/4-head gives six people three doubles + a spare and four bathrooms; youngest, most standardized fleet with the best base briefing for a **Level-3** destination.

Choose near-identical **Sunsail 454L** to shave ~10-20% and get the Flex Protection Plan instead.

◇ VALUE ALTERNATIVE

Dream Yacht Bali 4.2, round-trip Grenada. Likely cheaper, the open-transom Bali layout is superb for a group of six, and the deposit ladder is genuinely friendlier at long lead times. The trade: you give up the one-way and sail the Grenadines out-and-back.

This is the pick if flexibility on the deposit outweighs the one-way romance.

▲ DO THIS AT DEPOSIT, NOT LATER

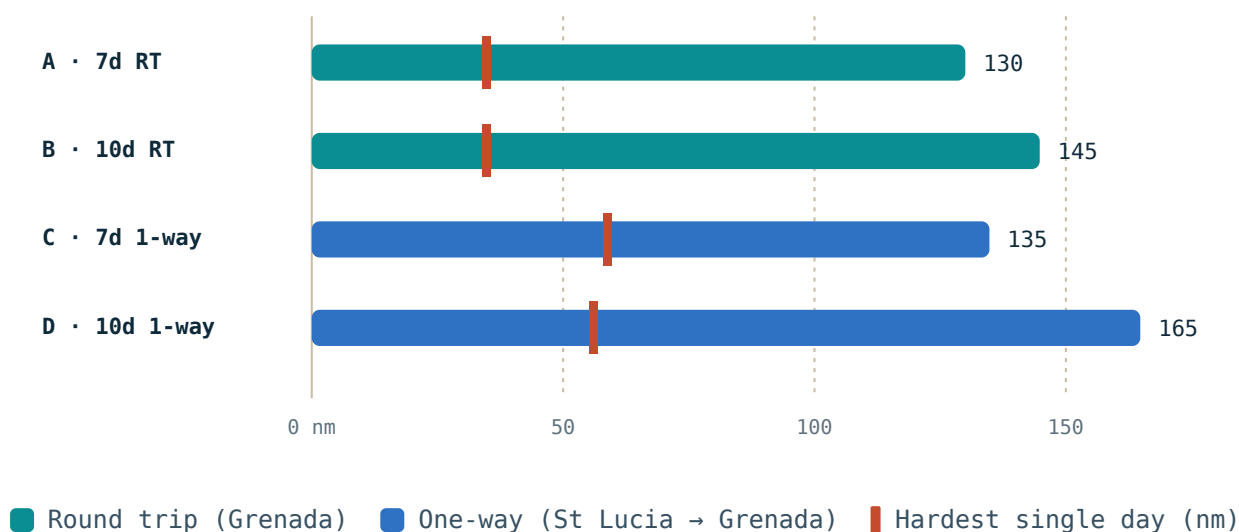

The flexibility that saves you if 2020 repeats is **not** an automatic guarantee — it's bought up front. On Moorings/Sunsail, buy the **Cancel-For-Any-Reason rider (Trip Mate)** and lean on the **12-month refund credit / Flex Protection Plan**. Travel insurance is a condition of booking anyway.

Four routes, honestly costed in miles and trade-offs.

All at 6 kn planning speed, with clearance points and one restaurant + one activity per stop (your 2020 shortlist, where the venue survived). Everything Grenada→Bequia is short lee-side island-hopping; the **only true open-ocean legs** are the Bequia↔St Vincent↔St Lucia channel crossings.

Total distance & hardest single day, by option

Nautical miles • at 6 kn $\approx$ hours $\div$ 6 • hardest-day marker in coral

Option A · Round trip

The 2020 route, compressed to 7 days

● ~130 NM

CUTS MUSTIQUE

HARDEST: UNION→GRENADA 34NM

Thu	Board Grenada · provision · sleep aboard	—
Fri	Grenada → Tyrrell Bay clear out	33 nm
Sat	→ Clifton clear into SVG → Tobago Cays	16 nm
Sun	Tobago Cays lay day · turtles · Romeo BBQ	0 nm
Mon	Tobago Cays → Bequia · Admiralty Bay	22 nm
Tue	Bequia → Chatham Bay clear out SVG	25 nm
Wed	→ Grenada · Port Louis clear in	34 nm

Best snorkel: Tobago Cays turtle sanctuary. **Honest cost of the cut:** you lose Mustique/Basil's and the lay day gets squeezed — the trip becomes a delivery with highlights, not a cruise. **Skip-if-forecast-turns:** drop the Bequia→Chatham 25nm and stage from Union instead.

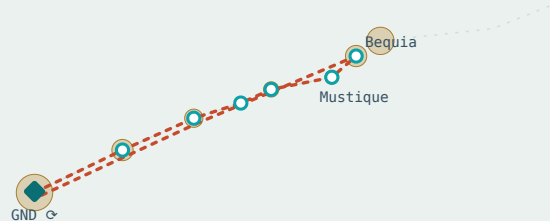

Option B · Round trip

The 2020 route + upgrades, 10 days

● ~145 NM

+SANDY I · CHATHAM · 2ND BEQUIA

HARDEST: UNION→GRENADA 34NM

Thu	Board Grenada · provision	—
Fri	Grenada → Tyrrell Bay lee coast to Sauteurs; mind Kick 'em Jenny	33 nm
Sat	Sandy Island snorkel → Clifton clear SVG → Chatham	13 nm
Sun	Chatham → Salt Whistle → Tobago Cays	8 nm
Mon	Tobago Cays lay · turtles · PSV/Mopion · Romeo	0 nm
Tue	Tobago Cays → Canouan · Glossy Bay	8 nm
Wed	Canouan → Mustique · Basil's	12 nm
Thu	Mustique → Bequia	12 nm
Fri	Bequia 2nd night · Princess Margaret · boatbuilders	0 nm
Sat	Bequia → Union/Chatham clear out	25 nm
Sun	→ Grenada · Port Louis clear in	34 nm

Best snorkel: Tobago Cays + Sandy Island. **This is the fullest round-trip.** **Skip-if-forecast-turns:** collapse

Canouan and go Tobago Cays→Mustique
direct (18nm) if a channel day looks
rough.

Option C · One-way

St Lucia → Grenada, 7 days

• ~135 NM

PITONS + GRENADINES

HARDEST: PITONS→BEQUIA 55–60NM

Thu	Board Rodney Bay, St Lucia · provision	—
Fri	Rodney Bay → Soufrière/Pitons SMMA mooring · Sulphur Springs	20 nm
Sat	Pitons → Bequia dawn start; bypass SV mainland; clear SVG	58 nm
Sun	Bequia → Tobago Cays · turtles · Romeo	22 nm
Mon	Tobago Cays → Clifton clear out → Chatham	6 nm
Tue	Union → Tyrrell Bay, Carriacou clear into Grenada	13 nm
Wed	Carriacou → Grenada · Port Louis mind Kick 'em Jenny	34 nm

Best snorkel: Tobago Cays. **The St Vincent question:** we bypass the mainland — a dawn Pitons→Bequia run is safer and simpler than an overnight at Wallilabou/Cumberland (see §5 security). **Skip-if-forecast-turns:** if the channel's ugly, break at Wallilabou in daylight on a trusted mooring, then hop to Bequia next morning.

Option D · One-way · ★ Recommended

The everything route — 10 days, StL → Gnd

• ~165 NM

PITONS · FULL GRENADINES · PETITE MARTINIQUE

HARDEST: PITONS→BEQUIA 55NM

Thu	Board Rodney Bay · provision · sleep aboard	—
Fri	Rodney Bay → Marigot Bay · Rainforest Hideaway	8 nm
Sat	Marigot → Pitons SMMA · Gros Piton · Diamond Falls	12 nm
Sun	Pitons → Bequia dawn start; clear SVG	55 nm
Mon	Bequia · Princess Margaret Beach · boatbuilders	0 nm
Tue	Bequia → Mustique · Basil's · Macaroni Beach	12 nm
Wed	Mustique → Tobago Cays · turtles · Romeo	18 nm
Thu	Tobago Cays lay day · PSV / Mopion sandbar	0 nm
Fri	Cays → Clifton clear out → Petite Martinique → Tyrrell clear in Gnd	18 nm
Sat	Carriacou → Dragon Bay, Grenada Molinere sculpture park; mind KeJ	36 nm
Sun	Dragon Bay → Port Louis · disembark Mon	4 nm

Best snorkel: Tobago Cays + Molinere Underwater Sculpture Park. **Final night:** Dragon Bay confirmed viable — snorkel the sculptures at dawn before checking out. **Skip-if-forecast-turns:** the Pitons→Bequia leg is the whole plan's pivot; if it won't cooperate, hold at the Pitons a day and compress the Grenadines.

April is the sweet spot — and here's the exact window.

After the Christmas Winds, before the rains and hurricane season. Steady E/ENE trades, dry, warm water. The two channel crossings are the only legs you plan *around* the forecast.

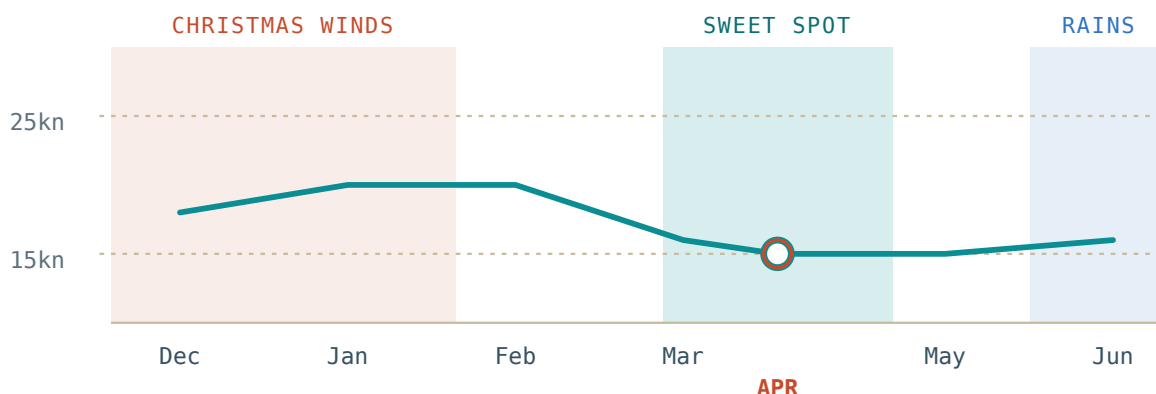

E/ENEPREVAILING
TRADES**12–20** knTYPICAL STRENGTH
· AVG ~15**1–2** mCHANNEL SWELL
(BEQUIA CH.)**~7**RAINY DAYS
(GRENADA, MONTH)**27°C**

SEA TEMPERATURE

Apr 20FULL "PINK" MOON
2027

The season, month by month

Reinforced trades ease into the April window, then the rains build

THE BEST TWO WEEKS

10-24 April 2027

Solidly late dry season (ahead of the late-April convective uptick), brackets the **full moon of 20 April** for bright dinghy runs and dawn channel starts, and sits well clear of Easter (Sun 28 Mar). **New moon 6 April** if you'd rather have darker, star-filled nights early.

PLAN THESE TWO AROUND THE FORECAST

The channel legs

Bequia Channel — short, steep, wind-against-current, 1-2 m on the beam; often the roughest of the trip. **Carriacou→Grenada** — 33 nm, more into the trades, start on the morning breeze. Reef early; both are fine for a competent crew on a settled day.

▲ KICK 'EM JENNY — LIVE HAZARD, STANDING EXCLUSION ZONE

The submarine volcano ~5 nm N of Grenada sits at **Alert Yellow** (its permanent baseline — it can't be seen and can erupt without warning) as of 2026; a brief seismic swarm in Aug 2025 stayed Yellow. A **1.5 km exclusion zone is always in force** (5 km at higher alerts). Escaping gas can also sink a boat by cutting water density — this is a keep-clear, not just an eruption risk.

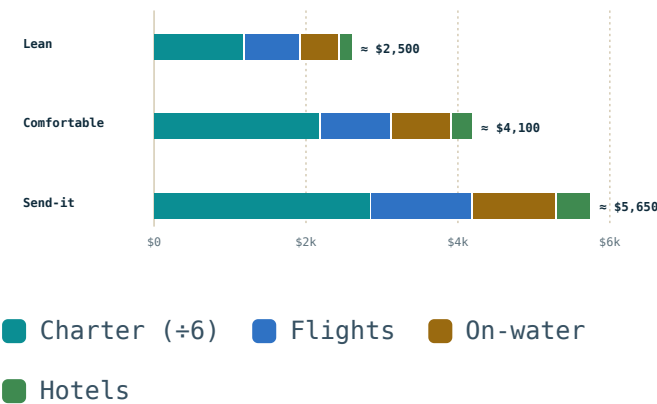

Routing: run up Grenada's calm lee coast to **Sauteurs**, then cross — staying west/seaward of the zone; don't cut between the volcano and Île de Ronde. **Re-check the UWI-SRC / NaDMA alert level the morning you sail north** and widen your offing to 5 km if it's above Yellow.

Three tiers, per person,
honestly inflated
from your 2020 intel.

Crew of six. Currency is easy: the **EC\$ is pegged at 2.70 to US\$1** and hasn't moved since 1976 — US dollars are accepted almost everywhere. The big swing is provisioning (Caribbean food is up ~35–45% since 2020) and the charter tier.

All-in cost per person, by tier

Crew of 6 • ~9–10 days • charter + flights + on-water + hotels • USD estimated

LINE	LEAN	COMF .	SEND
Charter + extras	7.0k	13.0k	17
Flights (×6)	4.2k	5.4k	7
On-water	2.8k	4.5k	6
Hotels (2 nts)	0.9k	1.6k	2
Trip total	~15k	~24.5k	~
Per person	~2.5k	~4.1k	~5
Group totals (6 pax). On-water = moorings, provisioning, fuel, customs, meals, BBQ, tips.			

On-water line items — 2020 baseline vs 2026

ITEM	YOUR 2020	2026	US\$	TAG
Bequia mooring	EC\$60	EC\$50–60	~20	V
Tobago Cays mooring + park (6 pax)	EC\$45 + EC\$10pp	EC\$60 + EC\$15pp	~56	V
Mustique mooring (mandatory, limited)	EC\$210	~US\$200 / 3-day permit	~67/nt	E
Tyrrell Bay mooring	—	boat-boy ball	~20	V
Salt Whistle / Chatham	—	anchor free	0	V
Provisioning (6 pax, 9 days)	baseline	+35–45% inflation	1,500–2,700	E
Diesel (fuel in Grenada — cheaper)	—	Gnd ~\$4.30 · SVG ~\$6.02/gal	150–300	V
Romeo lobster beach BBQ (pp)	\$30–40	\$40–55	40–55	V
Basil's Bar dinner for 6 (send-it night)	—	~\$75+ pp w/ drinks	400–650	E
Per-night / per-event unless noted. EC\$2.70 = US\$1. V verified-current · E estimated.				

Provisioning strategy holds: your proven DIY approach still wins — bulk-shop at **IGA / Food Fair, St George's** (largest, cheapest), top up perishables at **Doris Fresh Foods / Knights Trading, Bequia**, and have water/beer delivered. On a true bareboat there's no crew to tip; budget **\$5–20** for boat-boy help and **\$20–50** for the base cleaner.

Counting back from 15 April 2027.

April is the tail of high season and the good 45-ft cats book early. It's already mid-2026 — the boat is the one thing to lock **now**.

NOW • ~9 mo

Book the boat & buy the insurance in the same transaction

Reserve the **Moorings 4500L one-way** (or Sunsail 454L / Dream Bali 4.2). At deposit, buy the **Cancel-For-Any-Reason rider** and elect the 12-month refund credit / Flex plan — this is the 2020-proofing, and it only exists if bought up front. Register **SailClear** (\$25/yr) any time.

~7–8 mo

Book flights the moment April 2027 schedules load

Open-jaw **UVF in / GND out** for the one-way. Lock the arrival buffer (Tue for SEA/PHX, Wed for DFW) and any overnight-at-hub. Position leg via **Barbados (BGI)** if needed. Reserve pre/post hotels — **Rodney Bay** (St Lucia) and **Grand Anse / Port Louis** (Grenada).

~3–4 mo

Reserve the Mustique mooring — it's limited

Only ~30 balls, mandatory, April is peak. Contact the Harbour Master (Slick Berris +1-784-488-8363) to hold one. Line up the **provisioning plan** (charter base package or IGA delivery) and confirm the sleep-aboard night.

~1 mo

Book Romeo & pre-pay park fees

Message **Romeo's BBQ** (WhatsApp +1-784-532-9822) to pencil the Tobago Cays lobster night. Pre-pay Tobago Cays fees online at **tcmp.reefsupport.org**. Re-confirm the unconfirmed venues (Lazy Turtle, Palm Beach, Happy Island, Salt Whistle spit).

Departure -2 wk
→ day

Final provisioning, forecast & hazard check

Finalize the grocery order. Pull marine forecasts (PassageWeather / Windy) for the **Bequia Channel** and **Carriacou-Grenada** legs. **Re-check the UWI-SRC / NaDMA Kick 'em Jenny alert level** and CSSN/Noonsite security bulletins. Weigh every duffel to ≤ 44 lb. Arrive on-island 1–2 days early — non-negotiable.

Confirm-before-you-commit shortlist: live April-2027 charter quote + deposit figures · Mustique mooring availability & current price · Salt Whistle Bay spit condition · fuel at Petite

Martinique (assume none) · Lazy Turtle / Slipway / Palm Beach / Happy Island operating status · SVG diesel price (2026 cap may lift) · Kick 'em Jenny alert level at departure · current security & sargassum bulletins.

Grenadines Charter Dossier · April 2027

Prepared as a decision-support document. Prices tagged **VERIFIED** reflect published 2025–26 rates; **EST** figures are planning estimates and must be re-confirmed at booking. The East Caribbean dollar (XCD) is pegged at **EC\$2.70 = US\$1**. Hurricane season runs Jun 1–Nov 30; April sits safely outside it.

Do your own final verification before committing funds. Charter fleets, mooring fees, customs schedules and flight routings change; Beryl recovery is ongoing. This dossier flags what was current at research time (mid-2026) and what still needs a phone call. Sea conditions and volcanic-hazard status must be checked against live NaDMA / UWI-SRC and marine forecasts before departure.
